The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, 6, 8, 9, 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Feder et al.

Feder et al discloses aqueous coating dispersions comprising crosslinkable silicone polymers, acrylic polymers, crosslinking agents, dispersants and several non-siliceous fillers, including alumina, which are seen as qualifying as abrasive grains.

Therefore, the reference anticipates the rejected claims.

Claims 2, 5, 7 and 10-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 19-27 are allowed.
